DIRECTIONS

Attach pouch & hose to sprayer

Spray damaged lawn area for 15 seconds

Water treated lawn areas

Save your sprayer for next time

Directions for use:

For repairing damaged lawn areas: Spray Pet Patch on affected area for 15 seconds at spray distance of 12 inches. Thoroughly soak the damaged grass areas. Once all spots are treated, remove sprayer and use hose to water in treatment for approximately 20 seconds. For quicker grass growth, patch the damaged area with grass seed after application.

For preventative use or entire lawn coverage: Spray entire pouch contents on lawn area up to 2,500 sq ft in size. For best results, water lawn thoroughly after application.

Repairs approximately 50 large pet spots. Covers up to 2,500 sq ft if used on entire lawn area.

Apply during the growing season as needed for spot treatment. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk, or street, back onto your lawn. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.

Sunday Pet Patch is a fertilizer mixture that contains an added blend of humic acid and nonionic surfactants which may aid in the uptake of micronutrients.

Covers 2,500 sq ft | Net Wt. 3.3lb (1.49 kg)

Sunday Pet Patch
F2690

GUARANTEED ANALYSIS:

Iron (Fe) 0.10%
