Suitable (and unsuitable) extinguishing media: Use media appropriate for the surrounding fire.

Specific hazards arising from the chemical: This product is not classified as combustible or flammable. Under fire conditions this product may release oxides of carbon and potassium, ammonia, and other metallic oxides.

Special protective equipment and precautions for fire-fighters: Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus. Cool fire exposure containers with water. Contain water used in firefighting from entering sewers or natural waterways.

Section 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures: Avoid contact with eyes and skin. Wear appropriate protective clothing and equipment, see section 8 of the SDS for further information. Avoid breathing mists or spray. Aqueous solutions may cause surfaces to be extremely slippery and pose a slip hazard.

Environmental hazards: Avoid releases to the environment. Report spill as required by local and federal regulations.

Methods and materials for containment and cleaning up: Collect spilled material with inert material and place into a closable, labeled container for disposal. Wash spill area with water.

Section 7. HANDLING AND STORAGE

Exposure guidelines:

Non-Hazardous Ingredients	None Established
Potassium Phosphate	None Established
Ammonium Polyphosphate	None Established
Ammonium Hydroxide (as ammonia)	25 ppm TWA, 35 ppm STEL ACGIH TLV 50 ppm TWA OSHA PEL

Appropriate engineering controls: If use generates mists, use general ventilation or local exhaust as required to minimize exposures levels.

Individual protection measures, such as personal protective equipment:

Respiratory protection: In operations where exposure levels are excessive, an approved respirator with dust/mist cartridges or supplied air respirator should be used. Respirator selection and use should be based on contaminant type, form and concentration. Follow applicable regulations and good Industrial Hygiene practice.

Skin protection: Impervious gloves are recommended to avoid skin contact.

Eye/face protection: Chemical Safety goggles are recommended if splashing is possible.

Other: Appropriate protective clothing as needed to minimize skin contact. Suitable washing facilities should be available in the work area.
