

# LAWN FERTILIZER POUCHES

Each Sunday lawn pouch is packed with rich macro and micronutrients to boost active lawn growth and fortify soil. Just attach the pouch to your hose and spray it on! If you're using add-on pouches in conjunction with a Smart Lawn Plan, wait at least a week between applications to prevent nutrient overload and waste.

*Read full label before use. Use only as directed.*

## APPLICATION TABLE

1,000–4,000 sq. ft.  
apply 1 pouch

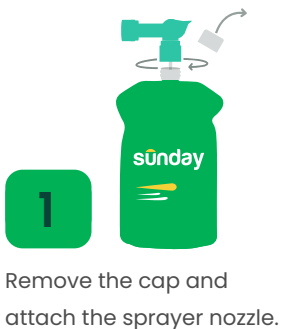

4,000–10,000 sq. ft.  
apply 2 pouches

10,000+ sq. ft.  
apply 3 pouches

## how to apply

## tips & tricks

- Do:** Use Sunday weed control and grass seed as needed throughout the season to reduce weeds and thicken your lawn.
- Do:** Make sure your lawn is sufficiently hydrated before applying.
- Do:** Fully drench grass blades during application.
- Do:** Wait about 24 hours after application to water your lawn, if supplemental water is needed.

- Don't:** Apply to drought- or heat-stressed lawn.
- Don't:** Walk on your lawn until fertilizer has dried.
- Don't:** Use within a week of a custom Smart Lawn Plan nutrient application, if you are a subscriber.
