Weed Warrior is a fast-acting weed, grass, algae and moss killer. Incidental overspray will not stain concrete or pavement. Weed Warrior is a non-selective herbicide that controls many common annual weeds. Weed Warrior suppresses the growth of some bi-annual and perennial weeds. It can be used in cultivated areas prior to planting grass or flowers. Areas can be re-sown five days after treatment. Weed Warrior can be used at any time during the year. Best results are obtained with young, actively growing weeds, less than five inches in size.
